## Kneader Sheeter's CA 310-540 E-DU - 120

The automatic sheeter CA 310-540 E-DU - 120 is a machine to produce **two sheets** simultaneously of cold laminated pasta. The sheet can be used to feed a ravioli machine RC 300-540 or RCA 300-540 type, placed in a continuous production line. Thanks to the double independent motorization it is possible to have different speeds for the two pasta sheets.

The extremely sturdy structure and technical solutions adopted such as: tempered and lubricated gears, double coaxial and multistage motor-gearbox, sealed bearings lubricated for life, guarantee a noiseless running with reduced maintenance exigencies and make it suitable for industrial use in a continuous production line, combined with a separate lifting mixer/kneader tank IR 70-130 E, with single-shaft discontinuous mixer IS 70-130 or continuous mixing machines.

The hygienic design incorporates a **twin sidewall** construction, with **external sidewalls in anodized aluminium and internal sidewalls in stainless steel**, which creates a distance between the bearings and the working area so any possible pasta contamination is avoided and any product can be easily removed.

There are no sharp edges and incorporates a **tilting hopper** and an **openable lower door for deep and quick cleaning**. All food contact parts are made in stainless steel or food grade plastic material.

The machine is provided with a double-shaft motor driven loading hopper with 70 kg capacity, double bearings on external sidewalls, double passage **gremola**, **final calibrating rollers** of 120 mm. diameter all **in stainless steel** and 2 conveyor belts for pasta sheets. Command, control and safety devices according to CE standard.

On request it can be provided with an electronic speed variator for the automatic adjustment of the production line.

It is also available the version with external sidewalls in stainless steel mod. CA 310-540 EL-DU - 120.

Machine	Unit	310 Double sheet	540 Double sheet
Hourly output	Kg	300	600
Sheet width	mm.	310	540
Tank capacity	Kg	70	130
Size	mm.	1300 x 1150 x 1830	1530 x 1150 x 1830
